# BENEFITS FOR STUDENTS

peerTransfer eliminates hidden fees, unfavorable exchange rates, and the inability to track funds. Turn a complicated struggle into a hassle-free experience for students and families.

## COMMON CHALLENGE

**Inflated Exchange Rates & Fees**  
The cost of education typically increases 3-6% when banks process the foreign exchange.

**Payment Tracking**  
Making a payment without a way to track the funds is worrisome and frustrating.

**Limited Support**  
Time zones make it challenging to receive answers to payment inquiries in real time.

**Short Balance Payments**  
Unexpected bank fees create confusion and leave students with a balance on their account.

## PEERTRANSFER SOLUTION

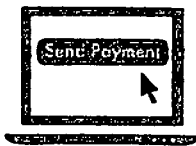

We protect students and families from inflated retail exchange rates by securing wholesale rates from financial partners worldwide.

International students can check the status of their payments at any time via a dashboard. Real time payment notifications are sent to students and families each step of the way.

Around the clock customer support is available through each step of the payment process via phone, email, and live chat.

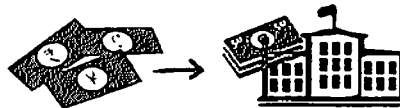

Our solution eliminates short balance payments, ensuring the booked payment amount is delivered in full to the institution.
